

TAROT WHITEPAPER

MYSTERY. FORTUNE. CYCLE.

INTRODUCTION

****Welcome to the world of \$TAROT,**** where mystery, fortune, and fate intertwine. \$TAROT is more than just a token; it's an experience, a journey into the unknown where the brave can unlock hidden rewards. Every decision, every choice, holds the potential to reshape your destiny within the cryptosphere.

TOKENOMICS

****Supply:**** The total supply of \$TAROT is limited to **1,000,000** tokens, making it a rare and coveted asset in the cryptoworld.

****Tax Structure:**** The Tarot token employs a **5% tax** on every transaction. This is split into two key areas:

- **1%** is allocated to the **Marketing Wallet** to ensure continued growth and visibility of the project.

- **4%** goes directly to **the Tarot Treasury for rewards**.

This tax is **redistributed** to holders based on their ranking in the mysterious phases, ensuring liquidity and community rewards.

-- **The maximum wallet limit** is initially set at **2%**. However, as the market cap grows, this limit will gradually increase **to 3%**. This approach provides an opportunity for **whales** to secure larger positions while allowing current max bag holders to expand their holdings and achieve a higher rank.

****Ticker:**** The symbol for this token is ****\$TAROT****, embodying the essence of fate and mystery.

****Conclusion:**** \$TAROT is designed as a rare artifact, with a supply of 1M tokens and a 5/5% tax structure to sustain its ecosystem. As you navigate the phases, remember that in the world of \$TAROT, your fate is yours to shape.

THE TAROT CYCLE

In the cryptic dance of the Tarot Cycle, **four** phases govern the flow of fortune. Each phase offers rewards to a specific group of holders, and the cycle repeats every 8 days.

1. ****Taurus Phase:****

- The top 15 holders claim **12%** of the tax generated, drawing strength from the mighty Taurus.

2. ****Leo Phase:****

- Holders ranked 16 to 30 secure **8%** of the tax, roaring in pride as they stand in the Leo's embrace.

3. ****Aries Phase:****

- Holders numbered 31 to 45 capture **6%** of the tax, driven by the fiery determination of Aries.

4. ****Sagittarius Phase:****

- **Three** random holders will share **4%** of the tax: one holder from ranks 46-100, another from ranks 101-150, and a third from ranks 151-200. The winners, chosen by the archer's arrow, **will be announced during a live stream.**

****Free Days:**** After each phase, **a day of rest** descends, allowing the cards to lie dormant before the cycle begins anew.

Here is an example of the rewards distribution for the Tarot cycle, based on a total tax generated of \$50,000.

4. Sagittarius Phase Reward Distribution (Random Holder Ranked 46–100 / 101–150 / 151–200)

- **Percentage Allocated**: **4%**
- **Total Reward Pool**: $(40,000 \times 0.04 = 1,600)$

The **4%** is divided among **3 holders** chosen from three different ranking ranges. The selection of the winning holders will be done through a live-streamed drawing:

1. **1 holder between ranks 46–100**
2. **1 holder between ranks 101–150**
3. **1 holder between ranks 151–200**

Each chosen holder will receive an equal share.

Distribution Calculation:

$$\begin{aligned} & \backslash[\\ & \text{Reward per Holder} = \frac{\text{Total Reward Pool}}{3} = \\ & \frac{1,600}{3} = 533 \\ & \backslash] \end{aligned}$$

Table for Sagittarius Phase:

Rank Range	Number of Holders	Reward per Holder (\$ETH)	Total Distributed (\$ETH)
46–100	1	\$533	\$533
101–150	1	\$533	\$533
151–200	1	\$533	\$533

Conclusion:

- The ****Sagittarius Phase**** distributes ****\$1,600**** in total among ****3 holders**** randomly selected from the ranks of 46-100, 101-150, and 151-200.
- Each selected holder receives ****\$533**** in rewards.
- ****The drawing for the winners will be conducted during a live stream****, adding excitement and transparency to the reward process.

****Reward Rules & Cycle Dynamics:****

Holders must be strategic. **Rewards are not given twice within a single cycle.** For example, if you are among the top 15 holders and get rewarded during the Taurus Phase, you won't be eligible for rewards again in the same cycle if you sell to drop into the top 20 during the Leo Phase. Instead, a new holder in position 31 could take that reward.

To maximize your gains, it's wise to hold your position. For example, a top 2 holder who maintains their position can receive rewards every week during the Taurus Phase forever.

Patience and strategy are key in this Tarot game of fortune. **The longer you hold, the greater the rewards cycle back to you.**

****Conclusion:**** The \$TAROT reward system is a cycle of fortune where holders earn tax rewards based on their rank. Phases determine reward distribution, with opportunities for random bonuses. The key lies in daring to hold and play the game.

THE CARD OF FATE

This is a Tarot card unlike any other. You choose the number of the card you wish to draw, but beware—each card comes with a price. Only the first 45 cards will unlock the rewards hidden within. The more you pay, the closer you rise to the top.

Remember:

- Card 2 claims the second top token holder spot.
- Card 3 claims the third spot, and so forth.

The true **mystery** lies not just in the numbers, but in the price you are willing to pay.
